

# Trusted Media For Trusted Brands

## Nikkei Online Edition

### Media Guide

Apr. – Jun. 2024 Edition

Digital Business, NIKKEI Inc.

Apr.2, 2024 Edition

Trusted media  
For trusted brands  
All for the readers

As the digital age and technology advance at an unprecedented pace, society is changing rapidly. However, unethical use of this technology could impair the reader experience, harm corporate brand value, and erode trust in the media. Therefore, a discerning eye for trustworthiness is needed more than ever.

We aim to enhance our clients' brand value by conveying their passion for business. For our clients to win trust in this age of online dissonance, we believe that the vehicles of the message must also be reliable.

**Trusted media  
For trusted brands  
All for the readers**

We never use technology in a way that compromises our values.  
We incorporate our values in every step of the process.

We pride ourselves on providing brand-safe, high-quality ad space that is free of brand-damaging context.

Revised Jun. 7, 2022

# A wealth of 1st Party Data: Targeting & reporting without 3rd party cookies

**NIKKEI**

Since its inauguration, the Nikkei Online Edition has been building the Nikkei ID membership system, receiving 1<sup>st</sup> Party Data and implementing attribute-based targeting. This system has been trusted and used by many advertisers.

In addition to this, we have accumulated approximately 40 million UBs of visitation and browsing data per month in our proprietary data warehouse, Atlas. Additionally, targeting by browsing behavior using this 1<sup>st</sup> Party Data was introduced in 2021.

Apple's privacy regulation (ITP) and Google's 3rd party cookie regulation scheduled for the latter half of 2024 have become urgent issues. However, the Nikkei Online Edition will continue to provide various targeting services based on the rich and robust 1st Party Data.

The strength of 1st Party Data is also demonstrated in delivery analysis reports. We hope you will make use of it.
