Viewability Guaranteed Banner Ads

To meet the growing need for trust and transparency in digital advertising, Nikkei Asia introduced Viewability Guaranteed Banner Ads, for which we only charge for traffic recognized as effective. Nikkei Asia aims to be a valued partner for global advertising by delivering unbiased journalism and quality content and increasing trust and transparency as an advertising medium.

With the Viewability Guaranteed Banner Ads option, an ad is only deemed to have had a “viewable impression” if it has met the standards of viewable impression set out by the Japan Interactive Advertising Association (JIAA). Measurement standards are based on the guidelines of the American Interactive Advertising Bureau (IAB) and the Media Rating Council, Inc (MRC). The measurement tools adopted are those of the U.S. company MOAT, which is affiliated with the IAB and MRC.

Viewable Ad Impression Measurement Guidelines

A viewable impression must meet the following requirements

1. **Display ads**
   - Requirement 1: **least 50% of the ad’s pixels are displayed in a viewable space**
   - Requirement 2: The ad is displayed continuously for at least 1 second

   *At least 50% of the pixels must be displayed before the time is measured.

2. **Video ads**
   - Requirement 1: **least 50% of the ad’s pixels are displayed in a viewable space**
   - Requirement 2: The video is displayed continuously for at least 2 seconds

   *At least 50% of the pixels must be displayed before the time is measured.
   *It does not necessarily have to be the first 2 seconds of the content.

*Same rules apply for desktop and mobile. In-banner video ads shall comply with display ad standards.
